

# Audience AH36

All-round compact ribbon line-array

- frequency response exceeding HiFi standards
- absolute 'line array-ability' H 36 degrees
- very dynamic power handling
- SPLmax 145dB @ 1 m.
- unparalleled 'gain-before-feedback'
- for medium to long throw applications
- complete system design for full 'component-synergy'
- 'plug & play'

**Complete  
touringsystem for  
the best acoustical  
solutions**

The ARMoR chassis™ can be seen as the 'signature' of SA amplifiers. This chassis is made from 3 mm. thick "mil-spec" aluminum and is the important ingredient of SA amps reputation of being road(y) proof! Indestructible, absolute torsion free, excellent strength-to-weight ratio, improved heat dispersion and high radiation shielding are the characteristics of this chassis.
