

## Stage Accompany is yet again well represented

A big party was held in Belgium last Saturday on the 4th of November, in Belgium. It was organized by Ansarat in a big party tent in Oud-Turnhout (city in Belgium just across the border with the Netherlands). It all began as a small gathering and it has developed into a mega festival for over 7000 people. An enormous tent was set up in an open field and the party could begin. For more information you can visit the website; [www.ansarat.be](http://www.ansarat.be) Mr. Michel Stoffels is the proud owner of "Music Service Michel Stoffels" and is responsible for many events like this. They are specialized in organizing of big projects in the Music and House scene. We are very conceited to say that "Music Service Michel Stoffels" has organized all the SA equipment that was present in Turnhout and the party was a great success. Every year more people are getting drawn to it.

## Our reseller network is expanding rapidly

Today we pay extra attention to our reseller of the month, Cazemier LGB B.V.  
LGB stands for: Licht (Light), Geluid (Sound), Beeld (Vision)

The roots of Cazemier LGB lay in the seventies when Mr. Sikko Cazemier started a drive-in discotheque. What began as a hobby developed in 1986 to the establishment of a rental company by the name "Sikko Cazemier Licht en Geluid". By this time Cazemier served many customers like "Kruisweg Marum Partycentrum" and had various other assignments in Light & Sound. After many projects and big growth in orders the office and warehouse became too small. This resulted in moving from building to building before eventually finding a perfect location at business-park Leeksterhout in Leek (NL). By now the name has also changed to more represent the expanded services of the company. We are very proud to introduce "Cazemier LGB" as an appreciated dealer/reseller and we hope to continue doing business with them in the bright sounding future.
