

BlueBox celebrates its 20th birthday

In 1986 Stage Accompany introduced, the Blue Box, a ground-breaking product, far beyond it's time. A product with much capability and new features. A product where at the time the world wasn't ready for. Now, 20 years later we revitalize the product into today's world and we are standing at the beginning of a new era.

The performance of the Ribbon is unique and it is entirely different than the technique of ordinary tweeters or/and the most common compression drivers. The sound of the Compact Driver is very open and pure. That is why the product still stands tall with such glory and none of the other products on the market can be compared with it.

DJ Tiësto performs in La Rocca with SA equipment

We are very proud to announce that award winning [DJ Tiësto](#) has performed with Stage Accompany equipment in the [La Rocca](#). The La Rocca is a very high standing club in Belgium. It all begins in 1988 when the idea came to start a club unlike any other. The start of a club where all the right ingredients were melted in to one great ambiance.

DJ Tiësto was present in the La Rocca in honour of the "private Sunday's" on Sunday evening on the 15th of October.

It means a lot to us that such a great performer makes use of the best equipment available. We say thanks to La Rocca for the opportunity for meeting the most famous DJ over entire the world and for introducing DJ Tiësto the way how music should sound like.

Stage Accompany is heard and shown on TV.

More and more, there are extra news releases about our great success on the Music Moscow Exhibition.

Last Thursday the Russian business TV-channel RBC showed an interview with the manager Mr. Alexey Ramazov of [A&A Light Sound Equipment](#). Like we have told you before Stage Accompany was invited by this company to the Moscow Exhibition.

Mr. Alexey Ramazov has spoken on television and he represented Stage Accompany equipment. The sound and the quality was so perfect and great, that Stage Accompany sounded the best between all other systems.

Apply now for an AH36 horizontal line array demo.

Today we are demonstrating the AH36 Line Array to a selective public. We have visitors from all over Europe, Ireland, Belgium and some from here in the Netherlands. They all want to see and hear this extraordinary product line. Stage Accompany has organized two special days, the 6th and the 7th of November, for demonstrating the AH36 at our Head Office. Mr. Bart Vyncke and Mr. Dolf van der Veldt have selected a few clients who are very interested in the performance of the Horizontal Line Array. If you are seriously interested in a demo of our products, please let us know and send your request to email address to info@stageaccompany.com and we will see what is possible.
